WORK EXPERIENCE

Technical Lead

Paytm Payments Bank

05/2022 - Present

- Successfully managing and developing key projects, including the Net Banking Panel, Web Remittance Panel, Eagle (in-house frontend monitoring tool), and Frontend SDKs for functionalities like Login and 2FA.
- Achieved operational excellence by ensuring the Eagle monitoring tool effectively handled a transaction volume of 15,000 TPS.
- Collaborated closely with cross-functional teams, including product managers, designers, and QA engineers, to align development efforts with business objectives.
- Mentored a diverse team of developers, including SSE and SE, facilitating their professional growth through hackathons and technical sessions, thereby fostering team development and excellence.

Senior Software Engineer

Paytm Payments Bank

01/2021 - 05/2022

- Implemented robust web security measures to shield panels from cyber threats like CSRF, XSS, DDoS, SQL injection, ensuring system resilience, data integrity, and user confidentiality.
- Optimized application performance by implementing strategic enhancements, resulting in a remarkable reduction of load time from several seconds to an impressive 1 seconds, significantly enhancing user experience and overall efficiency.

Software Engineer

Paytm Payments Bank

04/2018 - 01/2021

- Developed a React UI Component library adopted organization-wide to uphold design consistency and optimizing development efficiency.
- Contributed to the comprehensive setup of Domestic money transfer panel from scratch, ensuring a robust foundation and streamlined functionality for optimal user experience and operational efficiency.

Software Engineer

Jugnoo(Socomo Technologies Pvt. Ltd)

01/2017 - 04/2018

- Designed and executed a comprehensive driver enrolment, verification, and activation system, ensuring seamless onboarding processes and enhancing operational efficiency.
- Effectively managed the invoicing process for Jugnoo drivers, ensuring accuracy and timeliness in financial transactions, thereby contributing to streamlined operations and financial integrity.
- Designed and deployed an innovative inventory management system, enhancing operational efficiency by streamlining inventory tracking and management processes, resulting in improved productivity and cost savings.

EDUCATION

Bachelor of Engineering

UIET, Panjab University, Chandigarh

2017
